

Sun. Aug. 7, 1877

Dear Vicki and Jimmy,

We are up at the cabin with Stella and Harold and the morning is beautiful. We are expecting two couples to come up pretty soon for the day and have all our food prepared. We came up Saturday and really cleaned the cabin, washing windows and scrubbing the outhouse. It looks so nice in the cabin I wish you were here.

Dad and Harold adjusted the water line so the rock goes farther out

which makes it possible to trace up water.

There was a six pack of beer up here which may be yours but we will pass it to good use.

I hope you had a good time in San Francisco and were able to keep warm.

By the way, the animal you heard up here didn't bother us at all last night and Dad and I slept upstairs.

At home now? I didn't get this mailed right away. Our weather has cooled since in the mid 90's. - way too hot.

Love,
mom

(over)

The animal barked on the
second night and it was
outside upon the roof.
